Please rate each player by comparing to all players in division, not just your team. Remember that this should be an age-appropriate evaluation. These are examples of what you might look at depending on age of team. Younger ages (e.g. U5/U6) should not be rated on specific skills listed below but rather how they might compare to peers.

Player can kick well with one and is functional with the other foot, above average ball handling skills. |
| 3= Average- | Player has knowledge of the game strategy as to offense and defense and is acquiring other position skills. Player is one footed and is trying to use the other foot for kicking, average ball handling skills. |
| 4=Below Average- | Player has some knowledge of the game and strategy but maybe having difficulty putting it in game situations. Needs work on skills and is functional with one foot but has no strength with the other. |

Spring 2025 Referees

90% of referees
report that abuse has
increased over the
last 5 years.

60% of referees
choose not to recertify
due to harassment
and threats.

Youth soccer needs
referees to grow -
without them, games
can't happen.

Spring 2025 Referees

It's Time To Bring Awareness To This Systemic Problem

The game belongs to all of us. To ensure that soccer remains a positive experience for everyone, we need your help to stop referee abuse.

Referee abuse is an issue that's on the rise. We need more productive dialogue about what is happening, and how we can prevent it. The bright future of soccer depends on creating a safer, more inclusive environment, where no one ever feels that his or her well-being is at risk.
