

Bad Weather Policy

Only the referee or the coaches (if ref is not present) may cancel games at the field at game time and not before game time. If at game time, conditions are poor but there is a possibility the weather could improve, we ask that teams wait 15 minutes and then the ref and/or coaches re-evaluate if the game could be held. Games must be canceled if spectators, coaches, or players see lightning or if the sirens go off.

In case of extensive rain resulting in poor field conditions, the Regional Commissioner may cancel games. Under questionable field conditions, check out this web site for cancellation information. Coaches will also be notified via email in the event of league wide game cancellations.
